

Menu for
the week...

Week 2

Growth mindset
thought for the week

Be the change you want to see in the world.

Dates for your diary

21st July 1.00pm Finish for end of term. (24th & 25th July Inset Days)
6th September Pupils return to school. (4th & 5th are inset days)

We have reached the end of a very actioned- packed year. Well done to all of the children and thank you for your support. All of the children deserve a good rest and lots of fun with their friends and family. If any children keep a diary of their holidays or add to / start up a bullet journal we would love to see these in September and we can celebrate them on our social media. School starts back for staff on Monday 4th September and children start back on **Wednesday 6th September.**

Today we say goodbye and good luck to our Y8's. They have been a fantastic year group and we wish them well with their future studies.

Star Pupil of the Week Week Beginning 10th July 2017

Year 5

Charley Wood	5JB
Ethan McCormack	5LM
Ruby Milner	5CWK
Molly Hodgetts	5SC

Year 7

Sydney Evans	7LW
Elicia Smith	7EN
Emily Lewis	7JW
Kym Pearson	7KM

Year 6

Noah Patton	6SB
Jacob Green	6AP
Kayleigh Dillow	6LK
Chloe Lester	6CA

Year 8

Kirsty Hughes	8SH
Anna Edwards	8SS
Hannah Booth	8RC
Rochelle Heyhoe	8CWT

Pupil and family achievements

PUDSEY PENNIES

The School Council did a great job in counting the money collected so far.
The total counted was £109.

In the run up now to Children In Need in November 2017 please keep collecting your pennies.

Thank you – your donations are very much appreciated.

Mud Run

Harvey and Jake Pitt have raised about £600 completing the very wet, muddy, smelly mud run for Motor Neurone disease. Well done!

Kitchen

As from 6th September the cost of a school meal will be £2.20. We will have new menus:

The Space Programme.

Staffordshire's Police and Crime Commissioner, Matthew Ellis, is bringing back the Space programme for Summer 2017.

Space was originally an activities scheme led by police in Staffordshire aimed at engaging young people before it stopped in the 1990s.

Mr Ellis has pledged money to fund activities with an aim to increase skills, improve health and general wellbeing by creating opportunities to engage with young people positively. Activities will include sporting events, hair and beauty classes, arts and crafts and music production and much more.

The Space scheme will run between 24 July and 1 September and will cover areas across Staffordshire and Stoke-on-Trent. Space 2017 is available for 11 to 17 year-olds; there is no cost for these activities.

More information, including a calendar of events is available at www.staffordshirespace.uk

QUARRY WATER IS STONE COLD AND CAN KILL

STAY SAFE STAY OUT

A quarry lake can be very cold even on a hot summer's day – you could die from 'Cold Water Shock' in less than 2 minutes.

'Cold Water Shock' can cause you to gasp involuntarily and inhale water, a very rapid increase in your breathing and the onset of panic. A deadly combination that can drown even strong swimmers within seconds of entering the water.

Assuming you survive the cold shock, the drop in temperature causes finger stiffness (making it difficult to climb out), reduced coordination (making it difficult to swim/tread water) and general muscle weakness. The combination of these symptoms make it very difficult to get yourself out of trouble.

Cold water shock can occur in water at 15°C or below. Even in mid-summer, the water in many quarry lakes will be well below this temperature.

PLEASE RESPECT THE WATER

Remember – warning signs are there to protect you
Visit our campaign Facebook page – Stay Safe Stay Out of Quarries

Why water in active & former quarries can be dangerous

- Very deep and cold water
- Sudden, unexpected changes in depth
- Steep or crumbling sides making it difficult to exit
- Submerged machinery or rocks that can injure jumpers
- Underwater plants, machinery or debris that can trap you
- Currents or powerful underwater pumps
- Dead animals/excrement in water causing disease
- Pollution/high alkalinity causing rashes, irritation and stomach problems
- Poisonous algae
