

### Pupil Premium Spending & Outcomes: 2014-2015

Strategy	Cost	Evaluation	Impact
Small group additional numeracy & literacy support	£36,490	Pupils are provided with small group intervention support for Maths and/or Literacy. They are grouped by both ability and skill gaps. Following analysis of results, further work is needed, especially with Writing intervention this year. Staff training in the FFT 'Write Away Together' programme is being commissioned to assist in closing pupils' gaps – programme to be implemented during 15/16.	In KS2 SATS: 86% of PP children intervention made expected progress in Reading 71% of PP children receiving intervention made expected progress in Maths 57% of PP children receiving intervention made expected progress in Writing  4 staff updated and trained in FFT Write Away.
University Visit	£255	Staff and pupils alike felt that this visit was a very useful trip which raised aspirations of KS3 pupils. The trip was felt to be so successful that we are planning to re-run it.	Surveys completed by pupils following their visit outlined that: 60% wanted to go to university. 30% indicated that they possibly wanted to go. 10% said they weren't sure yet and no-one said that they didn't want to go to university.  70% found the day really useful in thinking about their future and commented that it had been enjoyable. 30% found the day useful in thinking about their future & was enjoyable. 0% said the day wasn't useful.
Careers Education & Interviews	£800 + VAT	Training met the statutory requirements of school provision of independent careers education for Y8	Surveys completed by pupils indicated that: 86% felt that they had learnt a lot about careers available. 10% felt that they had learnt something. 3% felt that they hadn't learnt anything new.

		pupils. This also provided personal careers meetings for Pupil Premium funded provision of a forum in which youngsters could reflect on the direction in which they might wish to develop a career/future employment.	All pupils that received the careers interview said they found it useful (all written comments were very positive about the careers interviews).
Easter School	£897.26 Materials & Staffing	Pupils and parents alike were positive about the Easter School	Easter School experience was offered to all Y6 pupils and an additional day was provided to pupil premium funded youngsters. 26 pupils attended the Easter School. Those pupil premium pupils that attended Easter School achieved level 4 or higher in their SATS.
Curriculum Study Visits	£2644.90	As an inclusive school, we feel that it is crucial to support PP pupils in experiencing the rich and applied learning gained during curriculum study and residential visits alongside their peers.	Pupils accessed curriculum study visits throughout the year and Y6 enjoyed a residential visit to Laches Wood to develop resilience and team approaches.
Clothing	£50	Clothing support.	Pupils fit in with peers and have the same sense of belonging as others in the school. This enables full participation in learning activities such as sport.
Animal Therapy	£282	One pupil with specific additional educational needs received individual animal therapy as this was felt more appropriate than extra numeracy and literacy. This was a successful strategy which may be replicated with other pupils in the future.	Feedback during professional meetings was that this was helpful for this individual. The re-engagement that this support provided enabled a smoother transition to the child's current educational provider.

Training for Intervention Teacher and SENDCO	£700	2 staff attended West Midlands based 'Catch Up' training.	Intervention training applied by staff during small group sessions in support of pupils.
Pyramid Meetings	Staff release/meeting time costs	Deputy Head meetings with staff from high school to inform of PP pupils' needs and the strategies used to support them ready for transfer.	Smoother transition for PP children and sharing of good practice. Avoidance of replication of interventions.

**Planned support/spending for academic year (2015/16):**

The school received £67,870 Pupil Premium funding (including June 2015 adjustment). Plans to date include the following for 2015/16.
